The October Flying Meeting

The Wednesday, October 2, flying meeting could not have been better. The weather was perfect for flying and many folks were out from early morning, through the day and into the early evening.

Temperatures were mild and the winds light.

All kinds of flying craft from trainers through turbine powered helicopters took to the skies.

Relaxing in the shade before another helicopter flight.

Once again **Jim Lapham** cooked up a great field dinner with **Mr. Bill Brown's** famous chili to top the grilled hot dogs.

Arthur Deane held a brief business meeting to take nominations for the 2014 officers. Further nominations may be presented at the November meeting and a vote for the officers will take place then.

Those Nominated So Far Are:

President	Arthur Deane
Vice President	Ken Myers
Secretary	Lynn Morgan
Treasurer	Dave Stacer
Field Marshall	Bill Brown
Safety Officer	Rich Sievert

Mike Russell, our current treasurer, declined to run again because he's very busy and didn't feel he could devote the time attention needed for that important job. We all thanked Mike for his service.

Jim Lapham mans the grill as Larry Markey does a flyby with his beautiful turbine powered helicopter.

We also thanked **Jim Lapham** for providing another year of great field food. Your extra effort to make our flying meetings the best are GREATLY APPRECIATED by all of us.

Spotted on the flightline. Yep, it was the past, long serving and hard working Midwest RC Society president, **Howard Kendall**. He joined us and flew the heck of his electrically powered helicopter. Great to see you flying again, Howard!

Besides flying and BSing, the Midwest folks are also great at eating!

It was a great flying season and we are looking forward to spring.

Upcoming November Meeting From Arthur Deane, President

The November MRCS Meeting will take the form of an indoor flying session. We will meet at the EAA Building at 7.30 PM for a short business meeting with officers reports, the nomination of 2014 officers and any other new business. As usual an aviation related video will be shown from 7.00 PM.

After the business meeting we will move to an adjacent heated hanger where we will be able to fly indoor planes and helicopters.

We hope members will come out and enjoy what should be an interesting evening.

Entrance Road Work Update

To help alleviate a 'low spot' problem near the entrance to the flying field for both this autumn and next spring, a new drain has been added.

On Saturday, October 12, **George Harm** trenched an area for the new drain. **Arthur Deane** laid in the new drain and drain pipe on Monday, October 14 and

Arthur, Rich Sievert, Jim Ouillette and Ken Myers filled in the trench on Tuesday, October 15.

Backfilling the trench begins

We are all hoping this hard work will pay off for an earlier entrance to the field this coming spring.

Thanks guys!
